Remarket, Nov. 8, 1965.

Tell ma not in mournful numbers. Life is but an empty dream. For the soul is dead that alambers, . And things are not what they seem.

And the grave is not its goal. Dust thou art, to dust returneth,

Not enjoyment-and not sorrow, Is our destined end or way ; But to act that each to-morrow, Find as further than to-day.

And our hearts though stout and bray Still, like muffled drums are beating Funeral marches to the grave.

In the birouse of life, Be not like durab driven cattle-Be a hero in the strife.

Heart within and God o'er head.

We can make our lives sublime; And departing leave behind us, Poststeps on the sands of time.

Lives of great men all remind us.

Sailing o'er life's stormy main, A forlorg and shipwreck'd brother, Seeing, may take heart again. Let us, then, be up and doing,

With a heart for any fate; Still schieving-still pursuing; Learn to labor and to wait.

. Are Another new Tariff of charges has been 15aued by the Northern Railroad Co. Great things have been expected from the new Superintendent; but to all appearance he has failed, thus far, in coming up to these expectations. A comparative statement of the charges on Lumber, is as follows: Prior to the 21st of February, 1856, \$19 55cts were the nett charges 14th of April, it was \$26 35cts, and from the 14th of April \$30 have been charged. The effect of this continued rise will be to lessen people of Newmarket are concerned, perhaps there is not so much reason to complain, as they are enabled to purchase at so much lower rates, but it operates very materially against our Millers and Lumber Metchants, by disabling them from competing with others more favorably located, to supply the Toronto Market. We vince of Canada. commend the above facts to the consideration of the committee appointed to investigate into the affairs of the Company, by the Legislature.

Retirement of Hon. J. Ross. The agony is over-the fiat has gone forth -the Coalition combinations are crumbling in pieces, and the claims of justice for the tioner of our country is about being established, by hurling from power the hybrid government of railway speculators, land jobhors and office-seeking partisians who have too long been sustained at the helm of affairs in this Colony. Hon. John Ross has resigned his sent in the Cabinet; and this ate, of that Hon. Gentleman will no doubt be followed by other members of the Administration. We stated prior to the downfall of the Hincks-Morin Government, that a Coalition Ministry could not sustain itself in this country; and from the time of its formation to the present, not a stone has been left unturned, that would in the remotest way, tend to strengthen their position. But every effort has proven abortive. Places have been provided for some of the mon who first joinod in the alliance, and new elements have been introduced, with the view to infuse frush vigor and life, and to sustain themselves before the country; but even this dodgo failed, and the discordant elements. so long smothered, of which the Cabinet is composed are becoming daily more apparent. Hon. Mr. Ross.up to the present time appears to be the only man not totally lost to the political honor and the claims of responsible government, and has therefore, come out from amongst thom. We are not by any means, an admirer of the votes and proceedings of the Hon. gentleman referred to; but we are willing to accord him credit for good intentions, unless some new revelations furnish sufficient testimony to sub- Excise stantiate sinister motions. The retiring of Territo lal Mr. Ross may lead to explanations highly satisfactory to the country, and should it Casual tend to the thorough renovation and cleansing of the Augean Stables, the yeamanry of Upper Canada will rejoice.
